<u>Balcony Level Fixed:</u>	<u>227</u>
<b>Total seating:</b>	<b>804</b>

The Port Theatre is a proscenium Theatre with an elevating apron which acts as a thrust stage, an orchestra pit or theatre seating. The theatre has an adjustable Proscenium opening ...from 42' to 48'. See plans for more detailed information. The theatre space works equally well as a concert hall with variable acoustics and an RPG acoustical enclosure.

The Port Theatre operates with an on call roster of theatre technicians. The theatre will supply any or all crew for load-in, performance and load-out. When using house equipment the house will have a minimum crew requirement for each dept. ie: flys / audio / lighting. All crewing will be coordinated with the T.D. of the Port Theatre. Crew size will be determined in discussion with the T.D. to ensure safe, efficient procedures are in place at all times.

All crew requests shall be handled by the T.D. Please contact well in advance.

*Crewing :*

Dept. Heads on each theatre system utilized ie: Audio, Lighting, Flys  
Equipment operators and grips as deemed necessary  
Please note new rates as of **Sept. 2007**

All work on stage must comply with current safety regulations. The Port Theatre endeavors to be a leader in Occupational Health and Safety.
